

Plarn Project: Arena

A Collaborative Sculpture Installation#

Dear Plarn Partner,

Thank you for helping make plarn balls to be used in our artwork. We view this project as an art education awareness activity as well as an environmental awareness activity. Through your help, we hope to generate conversations about these important topics. One way we do this is by sharing with viewers the fact that this work is a collaboration of the artists with teachers, students, and friends of the arts across the nation and around the world. We also share that plarn is a free resource that can be used creatively in art classrooms. Once you have plarn, your creative options are only limited by your imagination.

As part of the environmental awareness activities, we publish the total amount of bags and plarn balls used to create this artwork. Help us give accurate information by using the tally sheet found on our website. Final totals can be recorded on the form below. This form also provides us with a way to recognize the contributors by sending a certificate of participation and including names on our website. Emails and address will not be shared with any other parties. Please help us spread the word by sharing this activity with colleagues, students, and friends. If you have any questions just send an email to art.gohein@gmail.com.

Thank you for your participation and support.
 go.hein
 (Jennifer Gonzales and Nathaniel Hein)

Plarn Project Participation Form					
Please send this form with plarn balls by October 22, 2010 to:			go.hein 2018 Felix Avenue Memphis, TN 38104		
School Name (if applicable)					
Name of Participant/Teacher					
Address					
	City		State		Zip Code
Email Address					
Plarn Project Information					
# of bags used					
# of plarn balls submitted					
Would you like to schedule an online interview with one of the artists for your class?	Yes		No		
Can we use your school name (if applicable) on the website	Yes		No		
Please attach or include any comments or questions from your students' tally sheets.
